

# Honeywell Announces Availability of the CT40 XP

Honeywell's Productivity Products is pleased to announce the launch of the CT40 XP mobile computer.

The CT40 XP is the latest offering on the Mobility Edge platform. A premier device, the CT40 XP is a comprehensive productivity solution for store associates and mobile workers. The CT40 XP accelerates the retail supply chain from factory to consumer by enabling more accurate and efficient execution of in-store workflows such as inventory management and merchandising to field applications such as last-mile delivery. The CT40 XP offers:

- The Mobility Edge Platform, a stabilized, locked down, certified integration of software, memory, Wi-Fi, Bluetooth, WAN, NFC, CPU that enables best-in-class lifecycle, OS updates and security.
- Guaranteed support through Android 11/R, with a commitment to provide support for Android 12/S and 13/T, provided it is technically feasible
- FlexRange – best-in-class scanning in a small form-factor device, with 160% longer<sup>1</sup> reading distance than the competition
- Operational Intelligence integration for real time asset data analytics and management
- Device Finder, to easily locate lost or misplaced devices even after the battery is depleted
- Smart Talk secured unified communications with PTT, texting, VOIP, voicemail and video calls
- Improved impact and drop resistance, with the ability to survive multiple 6-ft drop-to-concrete
- Available disinfectant-ready SKUs that can be cleaned with harsh chemicals without damage

## NEW PART NUMBERS

See the excel file for the many SKUs currently listed for this product.

## ABOUT CT40 XP

Built on Honeywell's Mobility Edge™ platform, the CT40 XP's common software ecosystem strengthens its security, accelerates deployment and extends its lifecycle.

With Honeywell's latest FlexRange™ imager, the CT40 XP captures barcodes from a distance of a few centimeters up to 10 meters (32.8 feet). It's sleek, pocketable design enables hours of productive use. Available with an 8-mega pixel front-facing camera and a 1920 x 1080 pixel display, the CT40 XP enables new video-oriented use cases such as group training and remote inspection.

Missing or misplaced IT assets cause not only operational downtime but can lead to security risks. With Device Finder capability, the CT40 XP can be easily located when misplaced or lost, for up to a week after the battery has been drained, protecting your investment.

With battery warm-swap, store associates can replace the battery without powering off the operating system, saving time in re-booting, logging in and opening applications. And with its rugged package and optional protective boot, it can generally survive repeated 1.8-meter drops to concrete, and aims to deliver reliable, secure performance for years, maximizing return on investment.

The CT40 XP includes the Mobility Edge system-on-module (SOM), a locked-down, standardized computer platform incorporating a powerful Qualcomm processor that is easily upgradable to Android™ 11 (R), with a commitment to support Android 12 (S) and 13 (T), subject to feasibility.
